

MUHIB UR RAHMAN

I am a concept artist with a background in fine arts from National college of arts (NCA). Over the past 8 to 9 years, I have specialized in creating comics and illustrations. Proficient in Adobe Photoshop and Illustrator, I also possess skills in traditional mediums such as oil, acrylics, and watercolors. I excel at meeting deadlines and am adept at managing time effectively.

Illustration

I started by doodling in my notebooks, which later evolved into digital doodles and caricatures when I got a Wacom Intuos device. From there, I moved on to creating comics and illustrations, sharing them on Facebook. As I progressed, I upgraded to a Wacom Cintiq and used Photoshop to produce even more refined illustrations. Now, I use an iPad Pro and Apple Pencil to create digital drawings. You can see my work on Facebook.

Drawing

I've been drawing since childhood, and it's always been one of my favorite hobbies. From a young age, I found joy in expressing my imagination on paper, and this passion has only grown stronger over the years. Drawing has always been a way for me to explore new ideas and bring my creative visions to life.
